PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center IPIc (DIA). The photographic analysis for this particular report was performed by the Production Center IPIc.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) the trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

This installation covers approximately 1,653 acres approximately six kilometers (km) south of Zhitomir. It is north of Berdichev approximately 35 km and northwest of Zhitomir Skomorokhi Airfield approximately 5.8 km (figure 4). The installation is served by a rail siding from the main line between Zhitomir and Berdichev and is also road served by the main road connecting these same two cities.

The installation contains 128 buildings (figures 2 and 3), including: four administration buildings, 84 barracks and quarters-type buildings, one mess hall, one mess hall support building, 60 support-type storage buildings, 11 maintenance-type buildings, 11 widely dispersed ammunition storage buildings, and one unidentified building. Also within the limits of the installation there is one probable tank/assault gun firing range and one vehicle park. There was no significant change on KEYHOLE photography between [redacted]

DESCRIPTION OF INSTALLATION

Railroad Service

One rail spur from the Zhitomir-Berdichev rail line serves the area.

Road Service

The main road service is from Zhitomir, via the Zhitomir-Berdichev road.

Aircraft Landing Strips

Zhitomir Skomorokhi Airfield which consists of one concrete runway of 7,800 by 290 feet is 5.8 km southeast of the installation. Zhitomir Airfield, a sod surfaced field, is located approximately 9 km to the north.

Ammunition Storage Area

Area I has 11 single-story ammunition storage buildings that measure 110 by 35 feet each.

Other Buildings

Area II has an unidentified single-story building.

Equipment Storage Maintenance Areas

Area III has one rail-served maintenance/offloading building 500 by 140 feet, four maintenance buildings 150 by 50 feet, one H-shaped maintenance building 250 by 200 feet with 70-foot wings, one L-shaped storage building 170 by 80 feet, two L-shaped storage buildings, and 17 support-storage buildings.
